Re: sales tax, Ordinance 676

Date: January 21, 2025

Mary Tietjen, City Attorney & Jenny Palmer,

Finance Director

To: City Council

From:

On June 17, 2019 the City Council adopted Ordinance 599, establishing the local sales tax that has been approved by the voters. In 2023, the Minnesota Legislature authorized the City of Excelsior to collect an additional \$23,000,000 in revenue from the local sales and use tax, plus associated bonding costs, for the improvements to the Commons as indicated in the Commons Master Plan as adopted by the city council on January 9, 2023. This included securing and paying debt service on bonds issued to finance the project. The City Council approved the expansion of the half-cent local sales tax via Resolution 2023-51. The expansion of the local sales tax authorized by the Legislature was approved by the voters at the November 5, 2024 referendum.

The Council now needs to amend Ordinance 599 (Codified at Chapter 5 in the City Code) to authorize the expansion of the local sales tax. Ordinance No. 676 is presented for Council consideration.

Council Action: Approve first reading of Ordinance 676 and schedule second reading and adoption of the Ordinance for February 10, 2025.

time of making such sales collect the sales and use tax from the purchaser. The tax collected by such retailer shall be remitted to the Commissioner on behalf of the City.

- (b) Any retailer required to collect the Excelsior Sales and Use Tax and remit such tax to the Commissioner pursuant to this section shall register with the Commissioner and provide such other information as the Commissioner may require.

Sec. 5-8. –Agent of Retailer.

When in the opinion of the Commissioner it is necessary for the efficient administration of the tax, the Commissioner may regard any salesman, representative, trucker, peddler or canvasser as the agent of the dealer, distributor, supervisor, employer or other person under whom such salesman, representative, trucker, peddler or canvasser operated or from whom the tangible property is being sold is obtained, and may regard the dealer, distributor, supervisor, employer or other person as a retailer for the purposes of this Article.

MEMORANDUM

7(b)4-Temporary Parking Permits for
Contractors working on restricted streets

Re:

Date: January 21, 2025

To: City Council

From: Julia Mullin Community Development Director

The City Council asked staff to create a temporary parking permit that would be available for contractors who are working on a project in Excelsior on a street with restricted parking – a street that is “permit only” parking or has meters. We want to make sure contractors can park by the property where they are working so that they have access to their vehicles. The parking permit would allow the user to park on that street only.

Staff proposes amending the 2025 Fee Schedule to add this new permit. We would offer up to 4 permits per address annually. The permit holder would be the contractor. The permits would be temporary. The permit itself would include the street address where the work is being done and would include an end-date to its validity; staff would determine the end date based on the project type with a maximum time period of four months. Staff recommends the permit cost \$20 each.

Recommendation: Adopt Resolution 2025-09 amending the 2025 Fee Schedule.

MEMORANDUM

12(a) – Amend Council Bylaws, Resolution

Re: 2025-10

Date: January 21, 2025

Theresa Bajda, City Clerk

To: City Council

From:

At the January 6, 2025 work session, Council discussed proposed changes to the bylaws to allow opportunity for the public to speak on both agenda and non-agenda items at Council meetings.

Subd. 5 of Appendix A (City Council Bylaws) in Excelsior City Code reads:

Subd. 5. There will be **a** brief time early in each regular meeting for the public to speak on non-agenda items.

Staff recommend removing reference to “non-agenda” items and implementing public comment cards. Members of the public who wish to address Council will fill out a comment card at the start of Council meetings. The City Clerk will distribute these comment cards to the Mayor and note whether the item is already on the agenda. The Mayor will utilize these comment cards to call on speakers and can decide, with input from Councilmembers, whether to have members of the public speak during open forum or when a specific agenda item is discussed. By removing “non-agenda”, Council has flexibility in deciding when public comments will be taken.

 (please print clearly)
Date _____
Name of Speaker _____
Address _____
Agenda Item _____ _____

Staff also determined the agenda order in Appendix A Council bylaws does not mimic the current order of Council agendas and have proposed amendments to correct.

Council Action: Approve Resolution 2025-10 amending Appendix A Council bylaws.

MEMORANDUM

Item 13(a) Walker Parking Study Update and

Re: Preview for Future Consultant Presentation

Date: January 21, 2025

To: City Council

From: Julia Mullin, Community Development Director

The goal for tonight's agenda item is to provide background information on the parking system work the Council and staff have been engaged in and to answer any initial questions you have. A map of the downtown parking area is attached.

BACKGROUND

We engaged Walker Consultants in the summer of 2023 to assist us with reimagining our downtown parking system given that we were constructing a new public parking garage. The city's objectives for the parking study were as follows:

1. Align all parts of Excelsior's parking system in anticipation of the opening of the new public parking garage so that we have adequate, predictable, and financially supportable parking in the City.
2. Recommend strategies to improve the operations and management of parking in Excelsior for businesses (and their customers and employees) residents, and visitors.
3. Consider how we price parking today and propose a plan for pricing parking that's based on best practices, resident, business and visitor needs, and maintenance responsibilities.
4. Create a maintenance plan for the public parking garage that will inform city financial planning.

The Council received a preliminary presentation from Walker Consultants on July 15, 2024. Here is a link to that Council Work Session packet and Walker's presentation (it is attached to this memo as well):

<https://www.ci.excelsior.mn.us/AgendaCenter/ViewFile/Item/929?fileID=5323>

The Council made some initial decisions in 2024 about parking, including: setting parking permit prices for 2025, prohibiting overnight parking in the new garage (with the understanding that the city may change this decision once we've experience how the garage is operating), and creating permit only parking on Morse Ave. between Second and Third Streets, and began discussion of Special Event parking permit fees we might institute in 2025 for the new garage and East Lot.

Walker Consulting will provide recommendations for our system. We want a system that provides convenient parking, is paid for equitably by residents, businesses and visitors, operates efficiently and is customer-friendly, and folds the maintenance and operation of the new public garage into the existing system. The areas of our parking system that the Council will review in 2025 and consider possible improvements to include: regulation and

locations of metered streets, special event parking fees, public parking in the new public garage including charging for special events or overnight, parking enforcement, and our two existing methods for managing and funding the provision of public parking by businesses that cannot provide parking onsite- the parking maintenance fee and the parking impact fee.

PARKING FUND

The Council also began work to establish a Parking enterprise fund. The purpose is to gather all parking-related expenses and revenues into one fund with the goals of creating a parking system that funds itself and to be transparent about how public parking is paid for in Excelsior. The parking fund gathers into one place parking revenues and expenses that in past budgets have been accounted for elsewhere in the budget, mostly in the general fund. The parking fund uses preliminary projections provided by Walker Consultants as part of our parking study. The parking fund will continue to be adjusted as we calculate the revenue and expense implications of the decisions Council makes about parking.

PARKING OPERATOR

One of the critical elements of a parking system is its operation and management. Operations includes managing meter technology, enforcing parking regulations and payments, updating signage to make sure it's accurate and to reduce visual clutter on our streets, managing the new parking garage including performing required maintenance, and to continually make adjustments to the system to keep it efficient and customer-friendly. Council requested that staff draft a Request for Proposals for a parking operator and bring it to council for review to help us understand all that a parking operator could offer and the cost of contracting with one. The draft RFP will be on an upcoming Council agenda.

TWO PARKING WORK GROUPS

The Council has created two parking work groups: a Parking Ramp Operations Work Group and a Parking Financials Work Group. The parking ramp group will take on operational questions about the new public garage and the second will work on the parking enterprise fund.

RECOMMENDED ACTION

This agenda item is intended to provide background information, opportunity to ask questions, and is preparation for an upcoming presentation by Walker Consultants of their assessment and recommendations for out downtown parking system. There is no recommended action at this time.

Parking Management Best Practices

PARKING MANAGEMENT: USER PREFERENCES

- Desires for parking:
 - Want it to be free;
 - Want it to be always available;
 - Want it to be convenient or proximate to their destination.
- **Typically, only two out of the three can be met simultaneously, depending on the user's preferences and cost/benefit analysis.**
- Cheap and/or free parking that is very convenient is typically full.
- Goal: Most convenient parking is \$\$\$; Less convenient parking is \$.
- Market compels users to make choices based on preferences and priorities

PARKING USER TYPES AND USE CASES

Shorter parking stays

ON-STREET PARKING

- Short-term parking (customers, visitors) (less than 3 hours)
- Resident parking in permit areas
- Passenger and goods pick-up/drop-off /loading/unloading
- Mobility and placemaking: parklets, street dining, bicycle and pedestrian facilities, etc.

Longer parking stays

OFF-STREET PARKING

- (Monthly) contract/permit parkers: Reserved and unreserved
 - Employees and residents
- Transient hourly and daily parking (greater than 3 hours)
- Hotel parking
- Event parking
- Other

CORE PRINCIPLES OF PARKING MANAGEMENT

1. Ready the system for a **successful launch of the new parking ramp**.
2. Accommodate the **range of user types** to the best of our ability. Promote a high degree of access and customer service.
3. **Promote turnover** of the most convenient, proximate parking resources, particularly on-street parking.
4. Generate enough parking **revenue to cover costs**, including debt service and capital set-asides. Make the parking program and fund self-sustaining.
5. Provide the “**right-sized**” **parking supply and** promote the greatest **use efficiency** possible of the existing parking supply.
6. Conduct **consistent (but fair) enforcement** of parking rules and regulations.
7. **Balance** parking access and operations, with multimodal transportation access and a walkable, vibrant downtown.
